LA GETS AN ECO FILM FESTIVAL - GREEN DOCS SCREENING SERIES

"Los Angeles prides itself on being an environmental leader and the entertainment capital of the world, and it's incredible to see both converge with our city hosting the environmental film festival, the GREEN DOCS SCREENING SERIES."

- Mayor Eric Garcetti, Los Angeles

ECO Films, LLC, in association with the Earth Day Network, is proud to announce its inaugural GREEN DOCS SCREENING SERIES, kicking off Earth Day, Wednesday, April 22.

According to ECO Films' founder and President, James Branchflower, "teaming up with the Earth Day Network's Global Day of Conservation campaign and elected officials to bring this special green event to the City of Angels is important for L.A. to bridge the gap between the film industry, environmental movement, and our government leaders."
